

JOB DESCRIPTION

Occupation Title:	Classification:
MALE FIELD INSTALLATION CLERKS	FIELD
Division:	Date:
DECIMAL CONVERSION PROGRAMME	: 29th July 1966.

1. To analyse operations of bank loan machines being brought from Australia and to adapt these to individual banking requirements in this country. This involves systems knowledge and ability to be taught machine layouts.
2. To install bank loan equipment and instruct operators.
3. To conduct field surveys two months prior to conversion as to a users systems requirements, so that where a loan accounting machine is provided a satisfactory loan machine can be scheduled (this requires a good understanding of layout reading and machine features.)
4. Where necessary to assist with systems and operator re-orientation on loan and converted machines.
5. Responsible for answering any queries by customers or plant personnel on systems.
